## Summary — Resolute and driven Software Developer Intern with experience in mobile and desktop application development using Flutter and C .NET. Enthusiastic about technology and committed to creating innovative and user-friendly solutions. A machine learning enthusiast eager to explore its applications for solving complex challenges.

## Technical Skills

| | |
|---|---|
| **Languages** Flutter, C#.Net, HTML, CSS, JavaScript, Python | Application Development, Web Development, Postgres, Machine Learning, TensorFlow, Google Colab |
| **Skills** Mobile and Desktop Application Development, Cross-Platform Development, Windows | |

## Experience

**DigitalCreatorz** — Jan 2025 – Present
*Flutter Developer Intern*
- Maintain and add features to an existing application used for event and touring management across global destinations.
- Work on enhancing the booking system for seamless user experience.
- Optimize app performance and ensure scalability for a growing user base.

**Tamanna Solutions Pvt Ltd, Surat, Gujarat** — Feb 2023 – Jul 2023
*Software Developer Intern*
- Contributed to the development of desktop accounting software, enabling traders to generate invoices and gain insights into their financial transactions.
- Facilitated efficient payment tracking, helping traders identify pending payments and maintain financial clarity.
- Collaborated with the team to implement cutting-edge technologies, including Flutter and C .NET, in software development.

## Projects

**Final Year Project — Parul University**
- Collaborated with fellow students to create a web platform connecting local odd job service providers (e.g., plumbers, electricians) with individuals in need of their services.
- Developed the frontend using HTML, CSS, and JavaScript, creating an intuitive user interface.
- Implemented MySQL as the local database to manage user data and service provider listings.

**Meals App (Flutter Project)**
- Developed a meals app that helps users navigate the process of making their favorite food recipes.
- Implemented various features using Flutter for smooth navigation and improved user experience.
- GitHub Link: Meals App

**Shopping List App (Flutter Project)**
- Expanded Flutter expertise by developing a shopping list app, allowing users to add items to their shopping lists.
- Focused on enhancing user interactivity and ease of use.
- GitHub Link: Shopping List App

**Neural Network ML Project (Machine Learning Project)**
- Trained a model to predict numbers from a dataset using TensorFlow, taking a first step in machine learning development.
- Focused on understanding and implementing neural operations to perform prediction tasks.
- GitHub Link: Neural Network ML Project

## Education

**Bachelor of Technology (Computer Science Engineering)** — 2019 – 2023
*Parul University*

**HSC** — Kendriya Vidyalaya Barkas, Hyderabad
*Percentage: 65.33%*

**SSC** — Kendriya Vidyalaya Durg, Chhattisgarh
*CGPA: 10*

## Certifications

**Introduction to TensorFlow for AI, Machine Learning, and Deep Learning**
- Issued by DeepLearning.AI on Coursera
